Teach your child the number of the bus they ride i.e. Bus #5, Bus #11, etc. Make sure your Kindergarten to Grade 4 child has the colored bus tag attached to their backpack, this is given from the teacher. This tag identifies which bus the student should be taking and corresponds with the route sign as displayed in the front/side window of the bus.

EZ ENROUTE GPS

EZ enRoute is a touch free GPS technology based tracking system which you can use to track the status of your child/children's bus. Registering for transportation enables the parent to track the bus via an app, EZ EnRoute. Download the app, username is the email address you provided on your Family Zone account and the password must be RESET the first time you use it. One parent is setup per child, if you want any additional logins please contact Lisa at lweidel@auroraschool.ca

VIDEO SURVEILLANCE

High Definition Video cameras that included audio, have be added to all the school buses to better monitor and be pro-active in assisting drivers and students to resolve incidents, issues and addressing safety concerns. The school bus is an extension of the classroom and this tool will be beneficial in assuring the same expectations as in the classroom are withheld in the school bus.

Lisa Weidel, the Transportation Manager is the only person who will review the video and would only be done if a concern has been brought forth and we are unable to clearly clarify the incident and cannot resolve it through the parent and/or student and/or driver interaction first. If required, the Principals and/or Superintendent will be shown the video in the case of an incident. *Program has the ability to block/blur faces that are not involved with the incident.

COMMUNICATION

Aurora School uses a variety of methods to communicate with bus riding families. Route information is primarily communicated through the website and email. Bus information with respect to late buses is

communicated either by PowerSchool School Connect, or email, or EZ enRoute GPS. Please make sure parent emails and phone numbers are up to date on your PowerSchool Parent account.

BUS ROUTES AND STOPS

Aurora Academic Charter School currently operates twelve bus routes serving the Edmonton area. Routes can be viewed on line on our website under Parents, Transportation or click on the following link <https://www.auroraschool.ca/bus-routes>

Aurora bus routes and stops are determined based upon the following criteria:

- The location of the student's primary residence(s) being at least 2.4 km from the school and within the city limits.
- Two stops locations will be considered for students with two parent resident addresses.
- Stops will not be created for extracurricular activities or at the parents' workplaces. However, a student may access such a stop if it is concurrently used by another student as his/her primary stop, with permission from the Transportation Manager.
- Stops are congregational in nature, serving multiple families and communities. These congregational stops may result in the need for parents to drive their children to their bus stop in their home community. If there is no home community stop, a neighboring community stop may be assigned.
- Stops are created at or near Edmonton Transit bus stops.
- Aurora School does not offer door-to-door or near-to-door service, due to the distance the buses must travel and our requirement to keep drive times and costs within policy guidelines.
- Bus routes travel along major arterial roadways, not in and out of the smaller suburban streets.
- Bus service outside the City of Edmonton is not provided. However, parents are welcome to drive their children to an existing stop within city limits as long as there is room on the bus.
- Students living in Edmonton's communities may expect ride times of up to 75 minutes each way. This is a common driving time for Charter schools.
- Aurora School reserves the right to alter routes and stop locations during the school year to accommodate changing rider demographics and/or to improve the flow, timing or safety of a route and/or stop.
- Routes, stops and travel times change from year to year with the changing student population.

Stops are chosen based upon a combination of the following criteria:

- ETS Bus Stop locations
- Distance and time of the route
- Minimization of backtracking or wandering
- The number of riding families in a community
- Centralized location of the stop for all users in the community

YELLOW BUS CANCELLATION/INCLEMENT WEATHER

The Transportation Manager, in consultation with School Administration may suspend or cancel school bus service to Aurora School when weather conditions constitute a hazard to the safety of students.

During inclement weather, the final decision to send a child to the bus stop or to school rests with the parents, even if the buses and school may be operational.

It shall be the responsibility of the Transportation Manager to advise the Principals regarding road and driving conditions. The Transportation Manager will solicit advice from the bus contractor and bus operators when preparing the recommendation.

The following factors in combination with each other, shall serve as guidelines for considering cancellation of bus service:

- a) Wind-chill of approximately -40 degrees Celsius, as determined by the Public Weather Information Office in Edmonton;
- b) Temperature of -35 degrees Celsius, as determined by the Public Weather Information Office in Edmonton
- c) Road and driving conditions

In the event of a busing cancellation a decision will be made no later than 6:30 AM the morning of. An automated phone message will be sent out to parents. Information on bus cancellations will be available on our website at www.auroraschool.ca/students-parents/busing

While on route, a bus operator has the authority to change the route direction in the case of an accident, impassable roads, road closure or directed by law enforcement.
