

EZ enRoute School Bus Tracking

EZ enRoute is an iBeacon Technology based Student Tracking system which you can track the status of your child as they use school bus transportation. You get notified about their status when picking up and dropping off with real time tracking of the bus.

EZ enRoute ensures a better assurance for parents about the actual where about of their children when they use school bus transportation. Plus parents can manage their time better as they get real time location of the bus. So no more unnecessary waiting at the bus stop and no more worrying about where your child is.

WHAT IS THE COST AND HOW DO I GET THE BEACON FOR MY CHILD?

By registering for the school bus you have also consented to the beacon for your child, beacons are mandatory to ride the bus. The first beacon is **FREE**, replacement is

required if it is lost or not returned at end of the year and a \$15.00 fee will be charged to your Family Zone account.

Beacons will be distributed after August 23, a letter with the beacon will be sent home in your child's back pack. **Prior to receiving the beacon, you can track the bus but will not receive notifications until the child is carrying the beacon.

HOW DO I TRACK MY CHILD'S BUS?

ez enRoute parent application is available on Android and iOS platform. Parents can directly download the application from Google Play Store or Apple App Store.

Tracking the bus - once the bus starts, you can see the actual location of the bus on route. A bus icon will appear on screen and it will move as per the location of the bus in real time.

Notifications - You will start getting notifications as the bus starts for pick up in the morning or drop off in the evening, refreshing every 30 seconds. Notifications gives updates about the location of the bus as well as boarding status of your child. Right from when the bus starts pick ups or drop offs, parents will get sequential notifications. If you have more than one child riding the bus, the names of your children will be displayed on top in tabs and you can tap on the name to see notifications related to each child.
